Re: Petition of Senator Dinniman for Interim Emergency Relief; Docket No. P-2018-3001453; Senator Dinniman v. Sunoco Pipeline L.P.; Docket No. C-2018-3001451

Secretary Chiavetta:

We write you today to express the importance in the completion of the Mariner East pipeline system. The Mariner East system has created a \$9.1 billion economic impact across Pennsylvania with much of it occurring in the southeastern portion of the state. It has helped give our refineries and existing petrochemical industry direct access to Pennsylvania's natural resources in the western part of the commonwealth.

It also will provide much needed butane to blend into our gasoline supply and propane to help heat homes.

We encourage the PUC to continue their oversight of the project being diligent to make sure Mariner East 2 is built safely. Pipelines are the safest means to move these products and we hope the PUC continues their oversight to make sure this is the safest pipeline in the commonwealth so that we can benefit from the opportunities that it presents.
